

Parkinson's Foundation: Impact by State

The Parkinson's Foundation has invested **\$2,523,000** in **research** to understand Parkinson's and to ensure **better care** for people with Parkinson's disease (PD) in Florida. As of 2018, in the last 5 years:

- **6,900 people with PD** accessed expert care annually at our **3 Centers of Excellence**, with **1,241** enrolled in the *Parkinson's Outcomes Project*, the largest clinical study of PD.
- **4 promising researchers** received research grants for their work to better understand Parkinson's.
- **470 health professionals** were trained to provide better care, and help close the gap in PD professional training.

We are equally committed to **educating and empowering** the PD community in Florida. In the last 5 years:

- **4,740 Aware in Care kits** prepared people for planned and emergency hospital visits.
- **6 research advocates**, people with Parkinson's and care partners, were paired with scientists to make research more effective and efficient.
- **3,000 people affected with PD** received free services, programs and resources through 63 local Florida grants, totaling **\$582,000**.
- **1,500 community members** attended our wellness, support and educational programs throughout Florida and the surrounding regions.

Offering professional help through **7,340** calls to information specialists via our Helpline, with **2,530** referrals to expert care.

Helping people with Parkinson's live well with **54,100** free publications distributed.

Bringing communities together to raise **\$2,805,000** through Moving Day, A Walk for PD, with **15,500** participants.

The Parkinson's Foundation makes life better for people with Parkinson's disease by improving care and advancing research toward a cure. In everything we do, we build on the energy, experience and passion of our global Parkinson's community.
