

Parkinson's Foundation: Impact by State

KENTUCKY

In Kentucky, there are an estimated **10,600 people with Parkinson's disease (PD)** who are 45 or older. The Parkinson's Foundation has invested **\$10,000** in **research** to better understand Parkinson's and to ensure **better care** for the Kentucky PD community. As of 2018, in the last 5 years:

- **265 health professionals** were trained to provide better care, and help close the gap in PD professional training.
- **60 people with PD** enrolled in the *Parkinson's Outcomes Project*, the largest clinical study of Parkinson's.

We are equally committed to **educating and empowering** the PD community in Kentucky. In the last 5 years:

- **435 Aware in Care kits** prepared people for planned and emergency hospital visits.
- **2 research advocates** — people with PD and care partners — were paired with scientists to make research more effective and efficient.
- **140 people with PD** received free services, along with access to exercise and wellness classes through 2 local Kentucky grants, totaling **\$10,000**.

Offered professional help through **685** calls to information specialists via our Helpline, with **100** referrals to expert care.

Helped people with Parkinson's live well, distributing **6,970** free publications.

Brought **300** Kentuckians together, raising **\$60,000** through Moving Day, A Walk for Parkinson's.

The Parkinson's Foundation makes life better for people with Parkinson's disease by improving care and advancing research toward a cure. In everything we do, we build on the energy, experience and passion of our global Parkinson's community.
