

Parkinson's Foundation: Impact by State

In Washington, there are an estimated **16,700 people with Parkinson's disease (PD)** who are 45 or older. The Parkinson's Foundation has invested **\$362,000** in **research** to better understand Parkinson's and to ensure **better care** for the Washington PD community. As of 2018, in the last 5 years:

- **75 people with PD** enrolled in the *Parkinson's Outcomes Project*, the largest clinical study of Parkinson's.
- **5 researchers** received research grants for their work to better understand Parkinson's.
- **210 health professionals** were trained to provide better care, and help close the gap in PD professional training.

We are equally committed to **educating and empowering** the PD community in Washington. In the last 5 years:

- **740 Aware in Care kits** prepared people for planned and emergency hospital visits.
- **6 research advocates** — people with PD and care partners — were paired with scientists to make research more effective and efficient.

Offered professional help through **1,120** calls to information specialists via our Helpline, with **90** referrals to expert care.

Helped people with Parkinson's live well, distributing **9,005** free publications.

Brought Washingtonians together to raise awareness for Parkinson's.

The Parkinson's Foundation makes life better for people with Parkinson's disease by improving care and advancing research toward a cure. In everything we do, we build on the energy, experience and passion of our global Parkinson's community.
