

# Parkinson's Foundation: Impact by State

In New York, there are an estimated **48,200 people with Parkinson's disease (PD)** who are 45 or older. The Parkinson's Foundation has invested **\$14,000,000** in **research** to better understand Parkinson's and to ensure **better care** for the New York PD community. As of 2019, in the last 5 years:

- **8,080 people with PD** accessed expert care annually at our **4 Centers of Excellence** (Mount Sinai Beth Israel | Columbia University Department of Neurology | Marlene and Paolo Fresco Institute for Parkinson's and Movement Disorders at NYU Langone Medical Center | University of Rochester Medical Center), with **273** enrolled in the Parkinson's Outcomes Project, the largest clinical study of PD.
- **18 researchers** received research grants for their work to better understand Parkinson's.
- **700 health professionals** were trained to provide better care, and help close the gap in PD professional training.

We are equally committed to **educating and empowering** the Parkinson's community in New York. In the last 5 years:

- **1,835 Aware in Care kits** prepared people for planned and emergency hospital visits.
- **25 research advocates** — people with PD and care partners — were paired with scientists to make research more effective and efficient.
- **100 people with PD** received free services, along with access to exercise and wellness classes through a local New York grant serving the Western New York region, totaling **\$5,300**.
- **1,310 local community members** attended our wellness, support and educational programs throughout **Rochester, Buffalo and surrounding Western New York** regions.

Offered professional help through **6,390** calls to information specialists via our Helpline, with **1,995** referrals to expert care.

Helped people with Parkinson's live well, distributing **45,030** free publications.

Brought **4,400** New Yorkers together, raising **\$960,430** through Moving Day, A Walk for Parkinson's.

*The Parkinson's Foundation makes life better for people with Parkinson's disease by improving care and advancing research toward a cure. In everything we do, we build on the energy, experience and passion of our global Parkinson's community.*
