

# Parkinson's Foundation: Impact by State

In Georgia, there are an estimated **20,600 people with Parkinson's disease (PD)** who are 45 or older. The Parkinson's Foundation has invested **\$1,862,800** in **research** to better understand Parkinson's and to ensure **better care** for the Georgia PD community. As of 2019, in the last 5 years:

- **2,370 people with PD** accessed expert care annually at our **2 Centers of Excellence** (Medical College of Georgia, Augusta University | Emory University), with **136** enrolled in the Parkinson's Outcomes Project, the largest clinical study of PD.
- **8 researchers** received research grants for their work to better understand Parkinson's.
- **290 health professionals** were trained to provide better care, and help close the gap in PD professional training.

We are equally committed to **educating and empowering** the Parkinson's community in Georgia. In the last 5 years:

- **1,730 Aware in Care kits** prepared people for planned and emergency hospital visits.
- **25 research advocates** — people with PD and care partners — were paired with scientists to make research more effective and efficient.
- **11,475 people with PD** received free services, along with access to exercise and wellness classes through 25 local Georgia grants, totaling **\$261,900**.
- **1,500 community members** attended our wellness, support and educational programs throughout Georgia.

Offered professional help through **1,650** calls to information specialists via our Helpline, with **350** referrals to expert care.

Helped people with Parkinson's live well, distributing **42,850** free publications.

Brought **2,590** Georgians together, raising **\$945,300** through Moving Day, A Walk for Parkinson's.

*The Parkinson's Foundation makes life better for people with Parkinson's disease by improving care and advancing research toward a cure. In everything we do, we build on the energy, experience and passion of our global Parkinson's community.*
