

# Parkinson's Foundation: Impact by State

OREGON

In Oregon, there are an estimated **10,500 people with Parkinson's disease (PD)** who are 45 or older. The Parkinson's Foundation has invested **\$584,950** in **research** to better understand Parkinson's and to ensure **better care** for the Oregon PD community. As of 2019, in the last 5 years:

- **2,050 people with PD** accessed expert care annually at our **Center of Excellence**, Oregon Health & Science University Parkinson Center, with **294** enrolled in the Parkinson's Outcomes Project, the largest clinical study of PD.
- **4 researchers** received research grants for their work to better understand Parkinson's.
- **160 health professionals** were trained to provide better care, and help close the gap in PD professional training.

We are equally committed to **educating and empowering** the Parkinson's community in Oregon. In the last 5 years:

- **660 Aware in Care kits** prepared people for planned and emergency hospital visits.
- **3 research advocates** — people with PD and care partners — were paired with scientists to make research more effective and efficient.

Offered professional help through **790** calls to information specialists via our Helpline, with **100** referrals to expert care.

Helped people with Parkinson's live well, distributing **24,240** free publications.

Brought communities from Oregon together to raise awareness for Parkinson's.

*The Parkinson's Foundation makes life better for people with Parkinson's disease by improving care and advancing research toward a cure. In everything we do, we build on the energy, experience and passion of our global Parkinson's community*
