

# Parkinson's Foundation: Impact by State

In Texas, there are an estimated **52,500 people with Parkinson's disease (PD)** who are 45 or older. The Parkinson's Foundation has invested **\$780,300** in **research** to better understand Parkinson's and to ensure **better care** for the Texas PD community. As of 2018, in the last 5 years:

- **4,220 people with PD** accessed expert care annually at our **Center of Excellence**, Baylor College of Medicine, with **482** enrolled in the *Parkinson's Outcomes Project*, the largest clinical study of PD.
- **4 researchers** received research grants for their work to better understand Parkinson's.
- **1,309 health professionals** were trained to provide better care, and help close the gap in PD professional training.

We are equally committed to **educating and empowering** the PD community in Texas. In the last 5 years:

- **1,800 Aware in Care kits** prepared people for planned and emergency hospital visits.
- **9 research advocates** — people with PD and care partners — were paired with scientists to make research more effective and efficient.
- **205 people with PD** received free services, along with access to exercise and wellness classes through 3 local Texas grants, totaling **\$30,480**.

Offered professional help through **3,000** calls to information specialists via our Helpline, with **925** referrals to expert care.

Helped people with Parkinson's live well, distributing **19,050** free publications.

Brought **1,700** Texans together raising **\$241,000** through Moving Day, A Walk for Parkinson's.

*The Parkinson's Foundation makes life better for people with Parkinson's disease by improving care and advancing research toward a cure. In everything we do, we build on the energy, experience and passion of our global Parkinson's community.*
